EV350PG Photo Gloss

EV350PG is a high quality photo base paper coated with poly-resin for superior ink receptivity. True gloss finish with extra smooth surface. Works on all popular brands of solvent, eco-solvent, Latex and UV wide format inkjet printers. Ideal for indoor point of sale posters and photo signage where a high gloss background without lamination enhances contrast and impact of the printed images. Excellent opacity minimizes shadowing and shine through front to back.
