## CV490SB Scrim Vinyl Banner

CV490SB is a Scrim Vinyl Banner material with an applied proprietary inkjet micro-porous coating. Compatible with dye and pigment aqueous inks although pigments are recommended to resist fading. Water resistant after drying. Works on all popular brands of aqueous wide format inkjet printers. Can be laminated with pressure sensitive and thermally activated films. For use in a wide variety of print-and-mount applications for point of sale displays, banners, and signage.
