## EV546WP 40/60 Window Perf

EV546WP is a white PVC vinyl face, self-adhesive black back with circular perforations, weeded, resulting in 40% open area. 25 micron clear removable adhesive, laminated to a 160 gsm duplex kraft liner, treated to capture UV and solvent inks in the open areas and release cleanly, enabling cross platform compatibility especially for UV curable inks. 1.5mm holes on 2.4mm centers with 30° offset results in 60% printable surface. Thicker vinyl face film provides two-year outdoor durability with proper installation.

Gloss/Finish	Gloss	
Weight	200 gsm	+/- 5
Thickness	6.3 mil	
Hole Diameter	1.5mm	
Open Area	40%	
Adhesive	Acrylic, removable, black
