EV575FB Front Lit Premium Banner Gloss

EV575FB is a front print premium 400 banner combining high tenacity 1000 denier polyester yarn, woven into scrim fabric with 18 x 13 thread count, encapsulated in PVC film front and back. Tensile properties equivalent to competitive 13 oz banner but 8% lighter in weight. Print surface is very smooth with a natural white shade. Proprietary adhesive laminating technique yields exceptional anti-curl properties even under low tension. Works on all popular brands of solvent, eco-solvent, Latex and UV wide format inkjet printers. Ideal for outdoor and indoor banners, point of sale displays, and retractable banner stands.
