## EV580FB Front Lit Economy Banner Matte

EV580FB is a front print economy 400 banner combining high tenacity 840 denier polyester yarn, woven into scrim fabric with 9 x 9 thread count, encapsulated in PVC film front and back. Proprietary construction with higher strength high tenacity yarn has the same or better tear and tensile properties as do competitive 13 oz banners using 1000 denier yarn. Print surface is smooth with a natural white shade and a slight scrim pattern. Works on all popular brands of solvent, eco-solvent, Latex and UV wide format inkjet printers. Ideal for outdoor and indoor banners, point of sale displays, and retractable banner stands.
