EV590SB DS Blockout Scrim Banner

EV590SB is a double-sided blockout 13oz smooth banner material with a 300 denier general tenacity yarn woven into an 18 x 18 thread count, married to an opaque back layer, then encapsulated in natural white PVC yielding print performance on both sides. Works on all popular brands of solvent, eco-solvent, Latex and UV wide format inkjet printers. For use as indoor banners, point of sale displays, retractables, tension stands where images will be viewed either up close or from both sides.
