EV910RF Repositionable Wall Fabric

Repositionable Lo-Tac Wall Fabric is compatible with solvent, eco-solvent, latex and UV inks. Works on all popular brands of wide format inkjet printers. This product is removable, reusable and repositionable. Sticks to virtually any painted surface in all weather and room temperatures, and can be easily removed residue free. The material does not rip or wrinkle and is not required to be removed over a certain period of time. Not recommended for rough painted surfaces including stucco, brick, non-painted cement surfaces, or heavy painted spackled board. Allow 30 days for newly painted surfaces.
